### **QB Check Testing Policy**

QB Check is a diagnostic tool, which is key in our diagnosis and management of Attention-Deficit/Hyperactivity Disorder (ADHD).

We conduct this test for initial diagnosis and subsequently for evaluating treatment efficacy.

Once medications are stabilized we anticipate no more than 1-2 tests per year.

Insurance companies consider this test as experimental. As a result, services for this test are not billed to insurance.

We have discounted the cost of the initial test to \$300.00 and \$200.00 for follow-up tests. This is the patient's responsibility at the time of the test.

Thank you for your understanding as our office continues to strive to offer the latest medical services and care for our patients.

Sincerely,

Billing Department  
V.Sharma M.D. Neurology Services and Sleep Center
